OUR APPROACH

IN HARMONY WITH THE PLANET

PRODUCT SUSTAINABILITY

With our furniture being timber based we ensure that the wood we use is sourced from responsibly managed forests. We became the first in the industry to be certified with a full Forest Stewardship Council® (FSC®) chain of custody. We also strive to use recycled content where we can and we only use water based paints.

Our door and drawer fronts include ranges with 100%, 90% and 50% recycled content. We also offer foil decors made from 70% recycled PET (reclaimed & recycled plastic bottles).

All of our plastic cabinet legs are made from 100% recycled plastic and our cabinet chipboard is manufactured from 57% recycled content.

We ensure that the timber based wood we use is sourced from responsibly managed forests and is FSC® certified.

We hold the accolade as Britain's first large furniture manufacturer to convert our painted products from solvent to an eco-friendly water-based option.

SUSTAINABLE OPERATIONS

Sustainability has always been a key focus of our operations. We have been awarded the ISO 14001:2015 standard for our Environmental Management Systems across all four sites and we are proud to be the first in our industry to achieve this.

Our delivery fleet is amongst the most fuel efficient on Britain's roads, plus we include Hybrid Electric Vehicles in our company car fleet.

Our manufacturing site is fueled by our 100% recirculation biomass fired boilers to optimise waste and minimise emissions.

0%

None of our manufacturing waste is sent to landfill and our literature is now produced on carbon balanced paper.
